Vladimir Putin
Kremlin, Moscow
Russia

Dear Vladimir,

Re: Peace Proposal for a better World

Greetings, and I hope you are feeling better now and I hope you recover to full health very soon.

It occurs to me that you neither seek money nor power as you control the biggest chunk of land on this planet, having said that its mind boggling why you are still persistent in your “Special Military Operation”.

The truth that nobody can deny is that Russia is bestowed with a lot of natural resources and the world is in dire need of those resources as of today. The fuel prices are skyrocketing and so is the inflation worldwide. Please stop listening to Rasputin, there was a reason why your political career is rivaled by only a few.

Your operation was against the neo-Nazis, yet as of today your position is similar to that of Hitler, I have a strong belief that you are capable of annihilating this planet yet you will not do it. I make a humble request; for the love of dogs please stop. We do not want Ivan the Terrible and neither will you be treated like the Russians who sold Alaska. My request is simple, renounce the annexed lands and humanity shall be ever so grateful to the mighty VLADIMIR PUTIN

Yours very truly
(Signed electronically)
